Bawabetna · User guide

Pest Control Companies Management

Every screen and every button, with real screens from the program.

Guide version 2026-10-27

Contents

1. Getting started
2. The home screen
3. Screens and what you record in them
4. Reports
5. Working with your clients
6. Your data
7. Help

Getting started

Download the program from bawabetna.com or the Microsoft Store and install it. On first opening, sign in with your Bawabetna account. The first month is free with every feature.

The first-run assistant asks for a few details, then the program is ready:

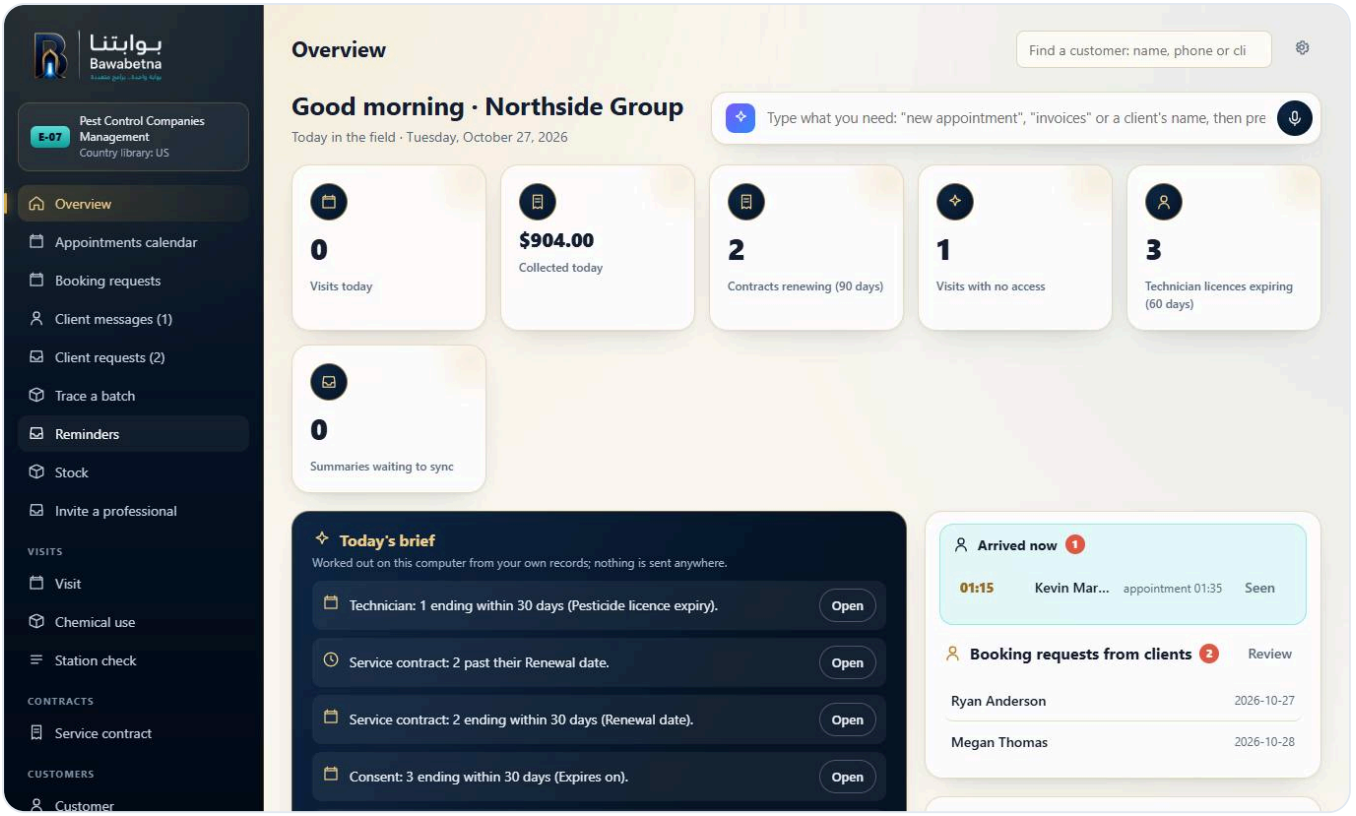

1. **Pest company**: Name, License number, Country, Default currency
2. **Branch**: Name, Phone
3. **Technician**: Full name, Pesticide licence number

Each person signs in with their own role and sees only the screens of that role:

- Company owner
- Manager
- Operations manager
- Stock keeper
- Technician

The home screen

The home screen shows today's work at a glance: counts, today's schedule, what is waiting and requests from clients. The command bar at the top opens any screen from a short sentence, such as a client's name or "new appointment".

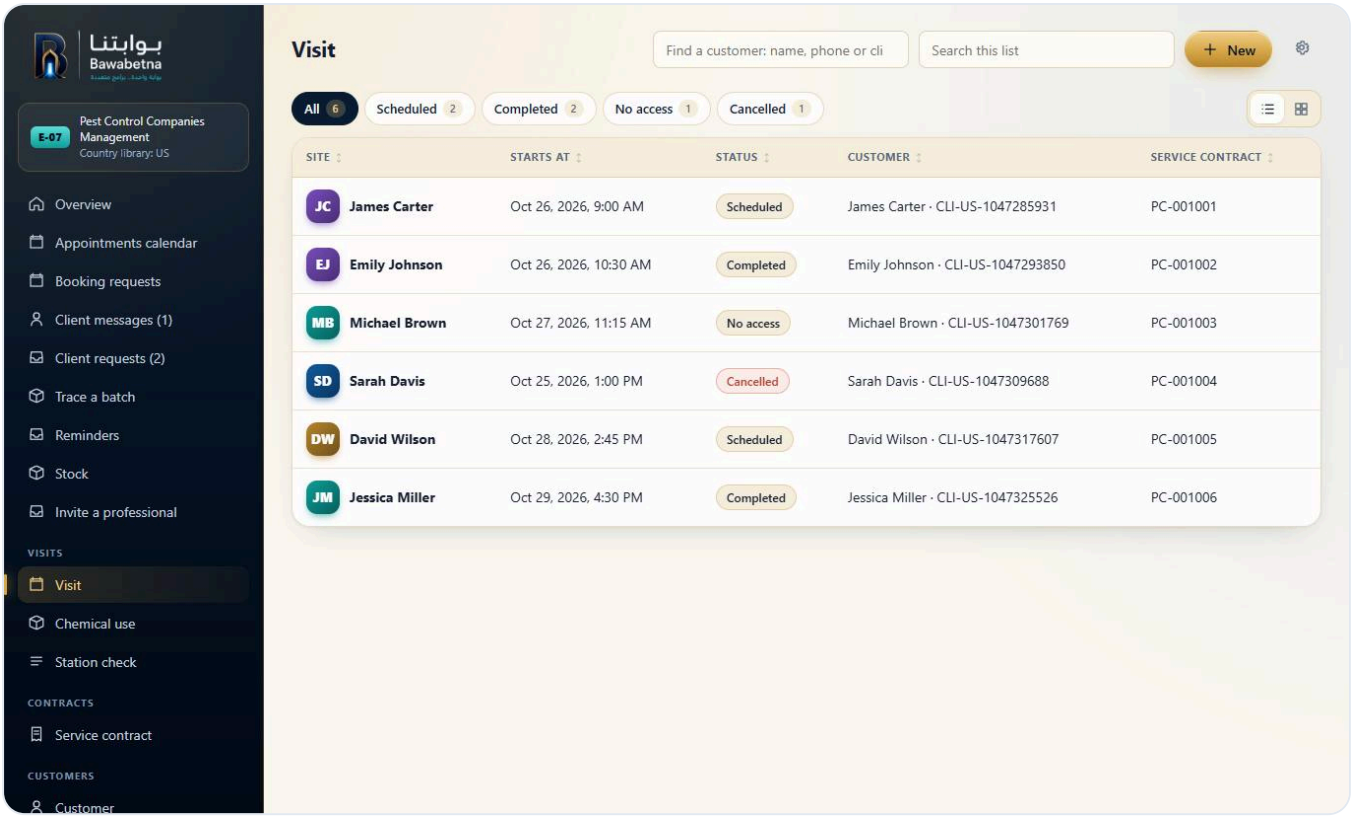

The home screen

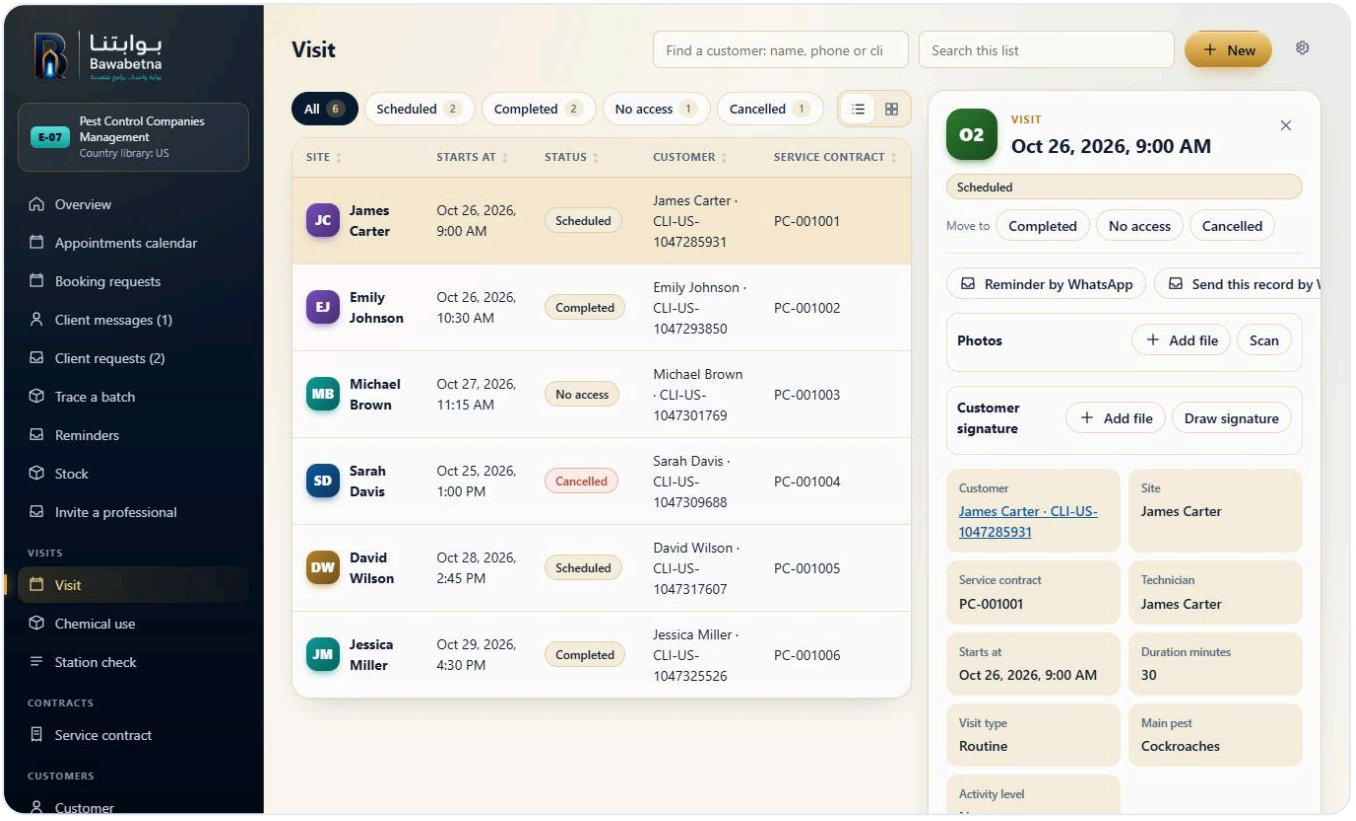

Screens and what you record in them

The side menu groups the screens by kind of work. Each screen lists its records: New adds one, a click opens it, and the buttons at the bottom of a record move it to its next stage.

Visits

Visit

A record open for editing

Visit

What you record: Customer (required), Site (required), Service contract, Technician (required), Starts at (required), Duration minutes (required), Visit type (required), Main pest, Activity level, Findings, Areas treated, Recommendations, Re entry hours, Warranty days, Photos, Customer signature, Certificate number (worked out by the program), Completed at (worked out by the program), Override reason, Status (required)

Reports

Reports are worked out on your computer from your records. Choose a period, see the chart and the table, then print or export them. The reports of this program:

- Visits by pest
- Visits by technician
- Chemicals used
- Callbacks by site
- Revenue by month
- Revenue by service
- Collections by payment method
- Outstanding balances by client
- Stock count differences by item (missing - / extra +)
- Receivables aging (days since issue)

Working with your clients

A client with a Bawabetna Client Code can, from the free client app: book an appointment, write to you, send requests and documents, sign documents, see what they owe and pay you directly, tell you they have arrived, ask for an earlier time and see their points. Everything reaches this program with its next sync.

Your data

Your records are kept encrypted on your own computer; only a short summary of each transaction is sent to Bawabetna. Make a backup from Settings; it is encrypted with your recovery key.

Help
