**Bawabetna · User guide**

# Livestock, Poultry, And Animal Production Management

## Every screen and every button, with real screens from the program.

Guide version 2026-10-27

# Contents

1. Getting started
2. The home screen
3. Screens and what you record in them
4. Reports
5. Working with your clients
6. Your data
7. Help

# Getting started

Download the program from bawabetna.com or the Microsoft Store and install it. On first opening, sign in with your Bawabetna account. The first month is free with every feature.

The first-run assistant asks for a few details, then the program is ready:

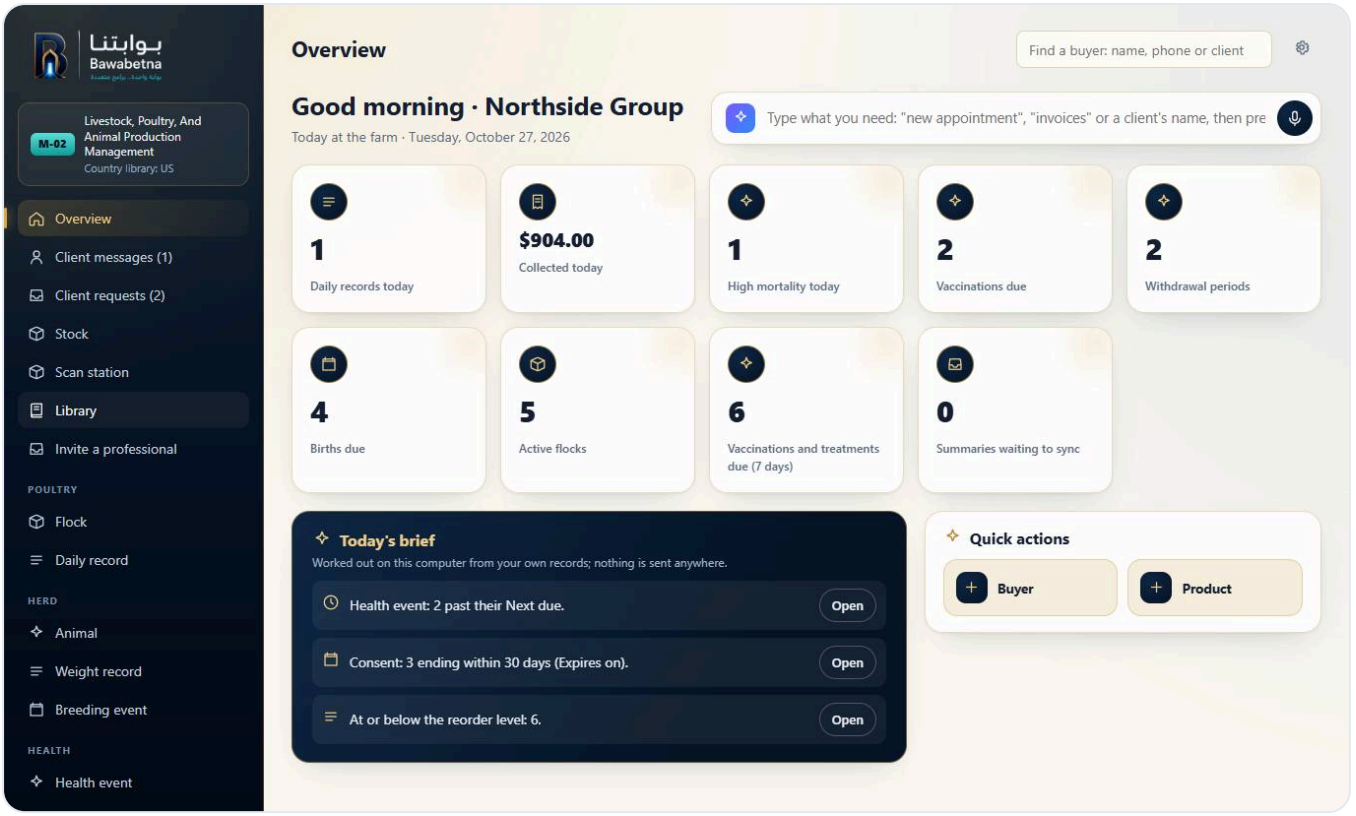

1. **Livestock farm**: Name, License number, Country, Default currency
2. **Branch**: Name, Phone
3. **Farm worker**: Full name, Job

Each person signs in with their own role and sees only the screens of that role:

- Accountant
- Farm manager
- Farm owner
- Farm worker
- Manager
- Veterinarian

# The home screen

The home screen shows today's work at a glance: counts, today's schedule, what is waiting and requests from clients. The command bar at the top opens any screen from a short sentence, such as a client's name or "new appointment".

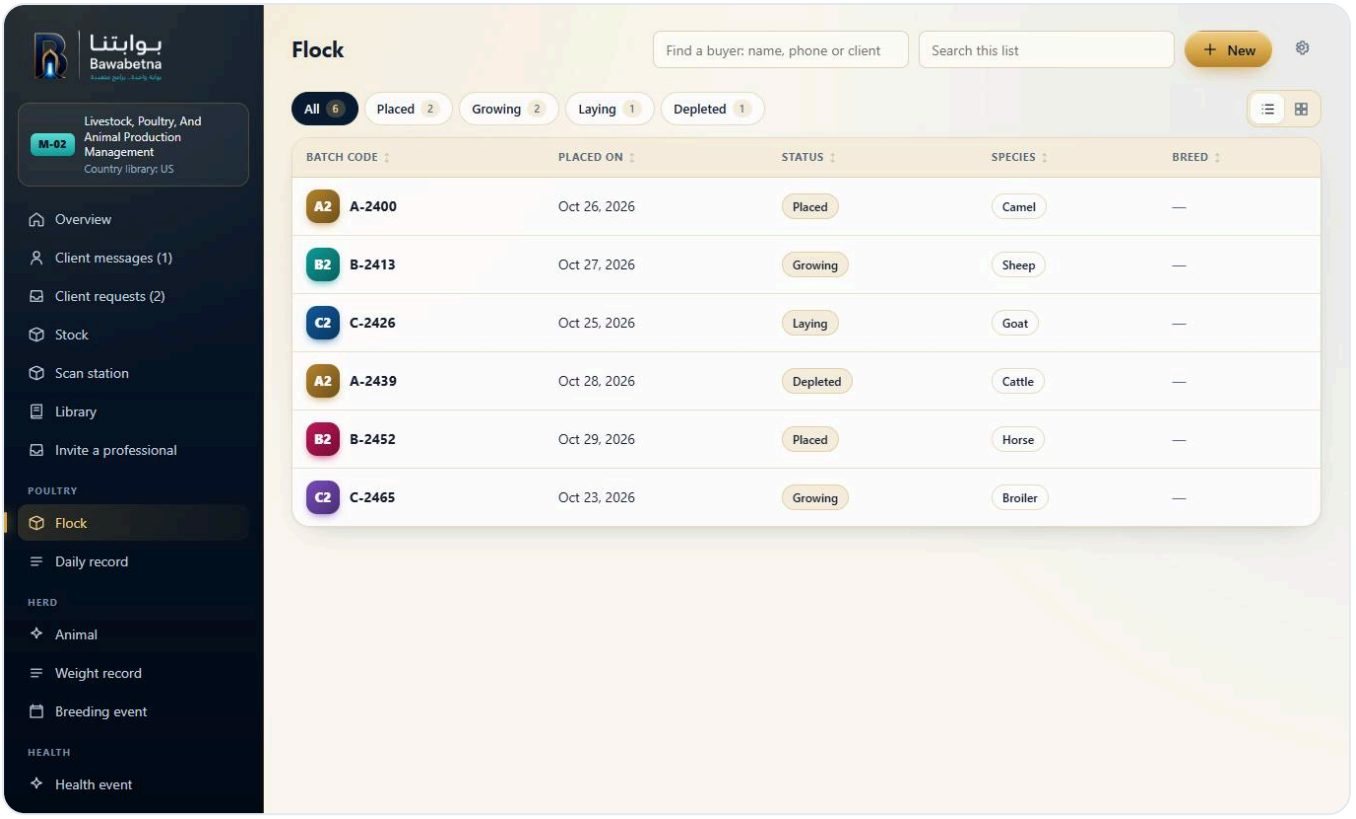

The home screen

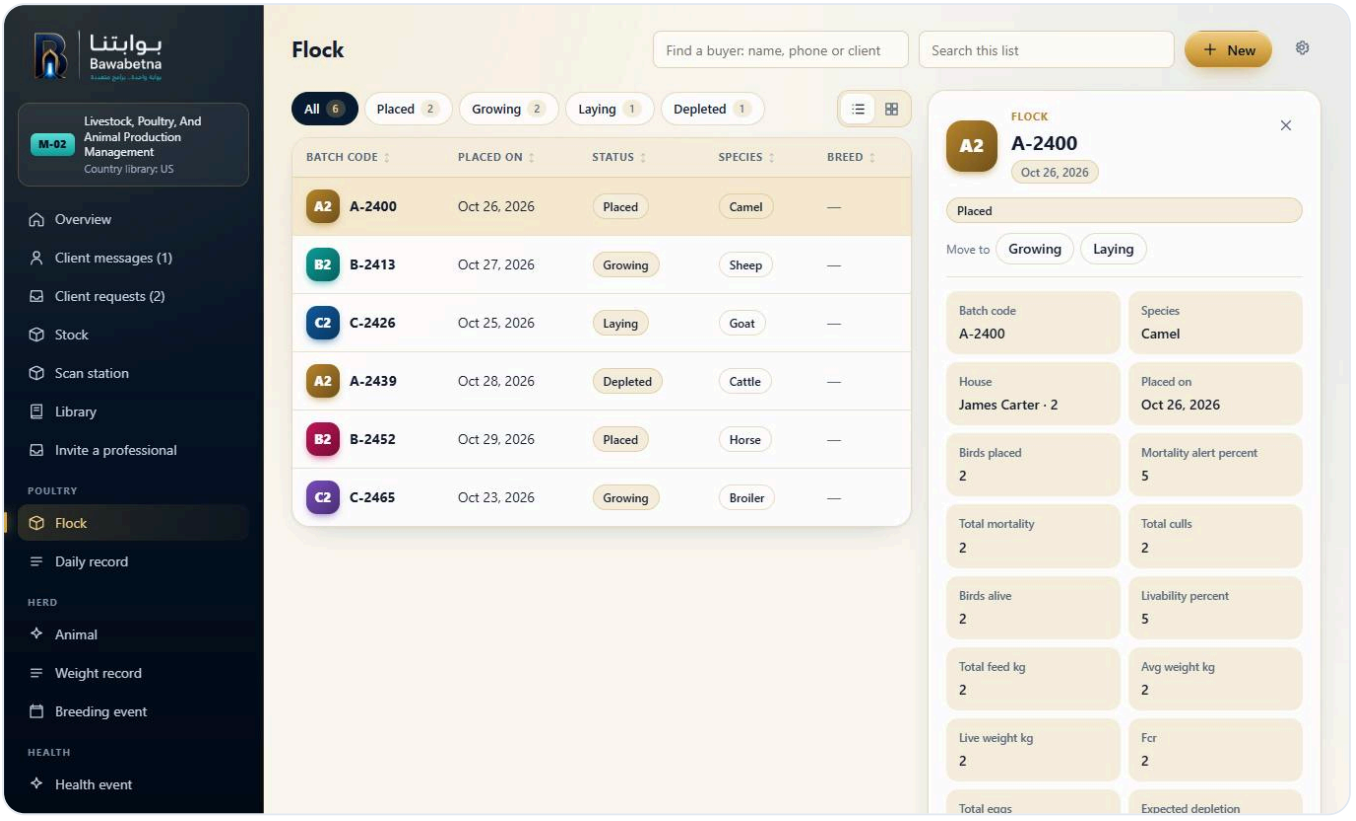

## Screens and what you record in them

The side menu groups the screens by kind of work. Each screen lists its records: New adds one, a click opens it, and the buttons at the bottom of a record move it to its next stage.

# Poultry

Flock

A record open for editing

### Flock

**What you record:** Batch code (required), Species (required), Breed, House (required), Placed on (required), Birds placed (required), Mortality alert percent, Total mortality (worked out by the program), Total culls (worked out by the program), Birds alive (worked out by the program), Livability percent (worked out by the program), Total feed kg (worked out by the program), Avg weight kg, Live weight kg (worked out by the program), Fcr (worked out by the program), Total eggs (worked out by the program), Expected depletion, Status (required)

**Stages:** A new record starts as "Placed".

Growing → Laying | Growing → Depleted | Laying → Depleted | Placed → Growing | Placed → Laying

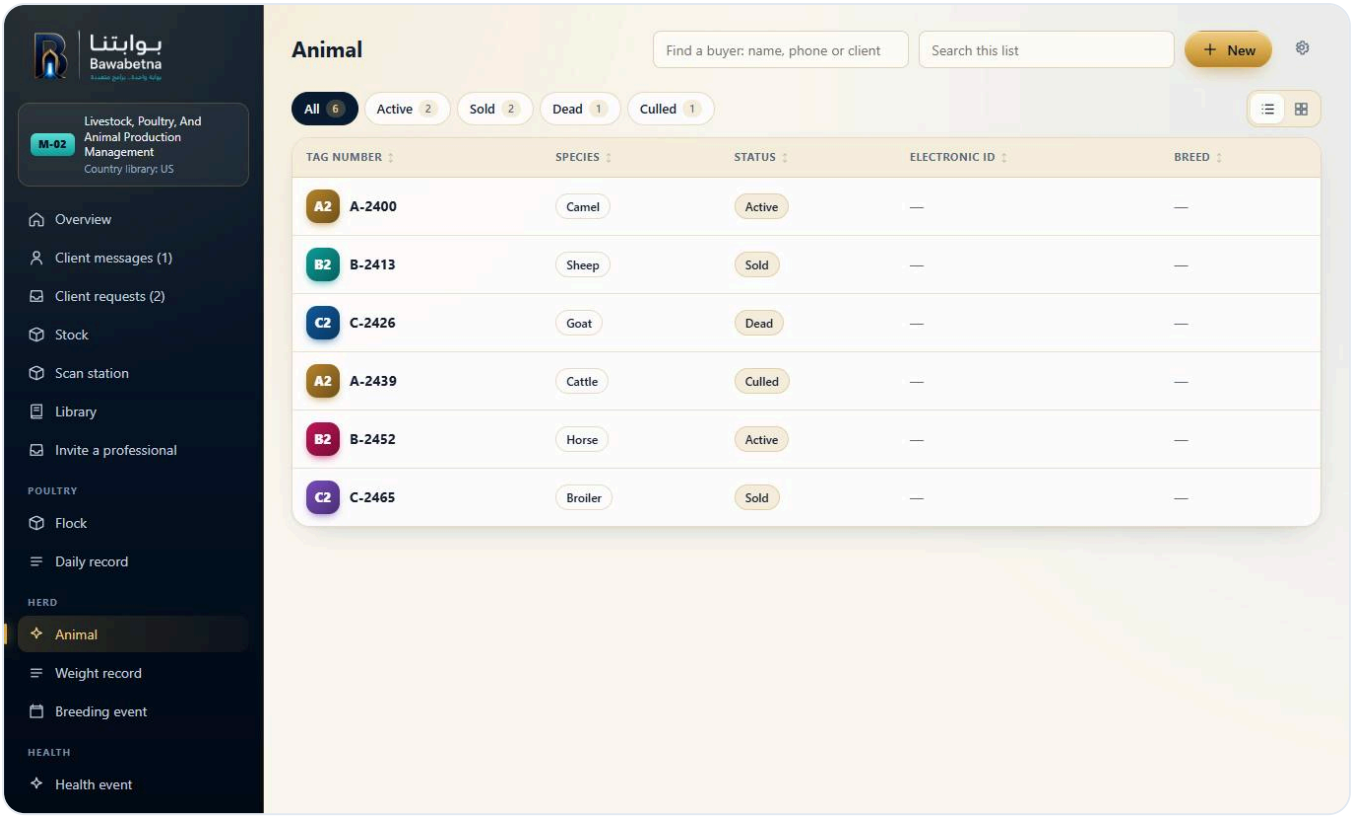

### Daily record

**What you record:** Flock (required), Birds alive (worked out by the program), Mortality alert percent, Record date (required), Mortality, Culls, Feed product, Feed kg, Water liters, Avg weight g, Eggs collected, Temperature c, Humidity percent, Note, Status (required), Mortality percent (worked out by the program), Mortality flag (worked out by the program)

**Stages:** A new record starts as "Draft".

Draft → Posted

## Herd

Animal

### Animal

**What you record:** Tag number (required), Electronic id, Species (required), Breed, Sex (required), Birth date, Dam, Sire, House, Purchase price, Current weight kg, Purpose, Status (required)

**Stages:** A new record starts as "Active".

Active → Sold | Active → Dead | Active → Culled

### Weight record

**What you record:** Animal (required), Weighed on (required), Weight kg (required), Body condition score, Previous weight kg (worked out by the program), Previous weighed on (worked out by the program), Gain kg (worked out by the program), Daily gain g (worked out by the program)

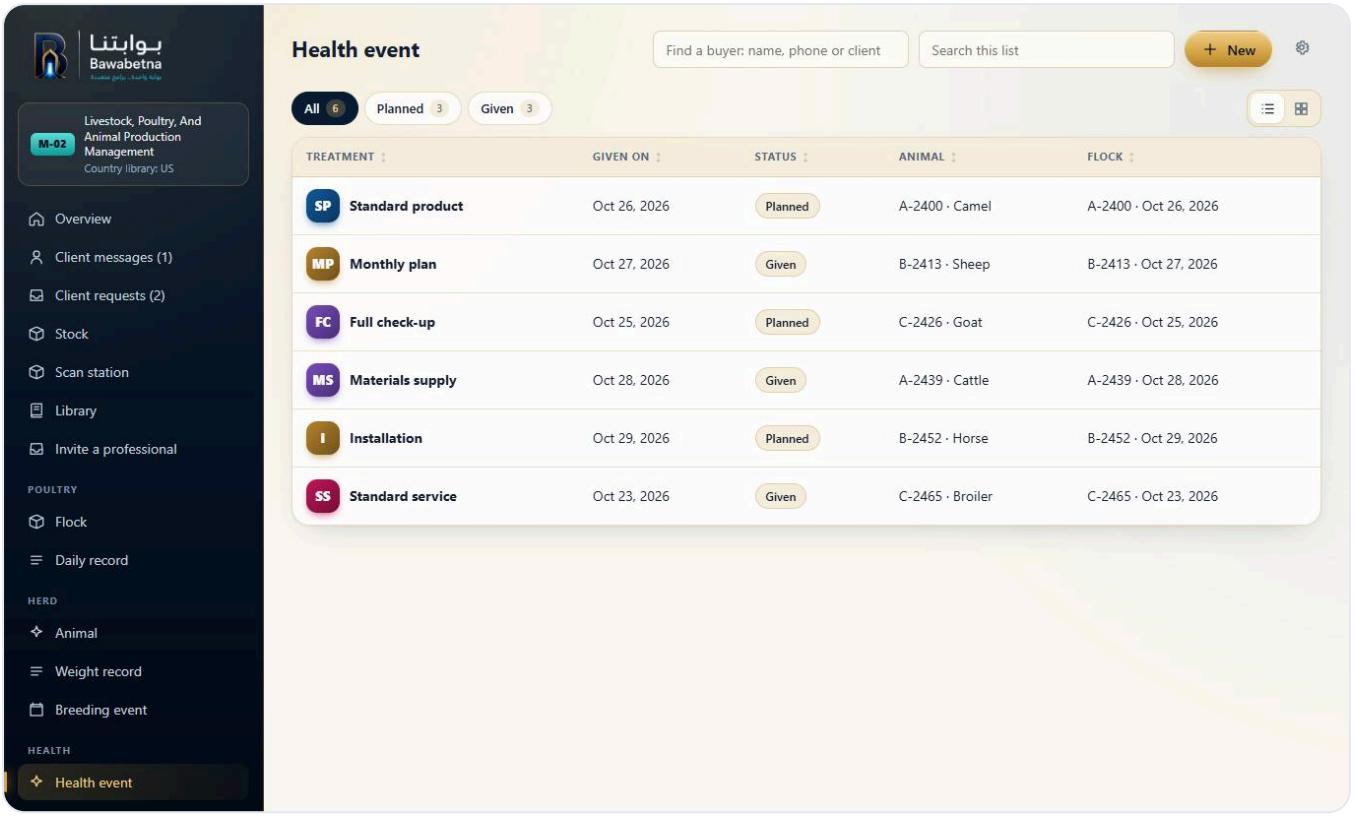

### Breeding event

**What you record:** Animal (required), Method (required), Sire, Semen reference, Bred on (required), Pregnancy check on, Pregnancy result, Expected birth, Offspring count, Status (required)

**Stages:** A new record starts as "Bred".

Bred → Confirmed | Bred → Failed | Confirmed → Delivered | Confirmed → Failed

## Health

Health event

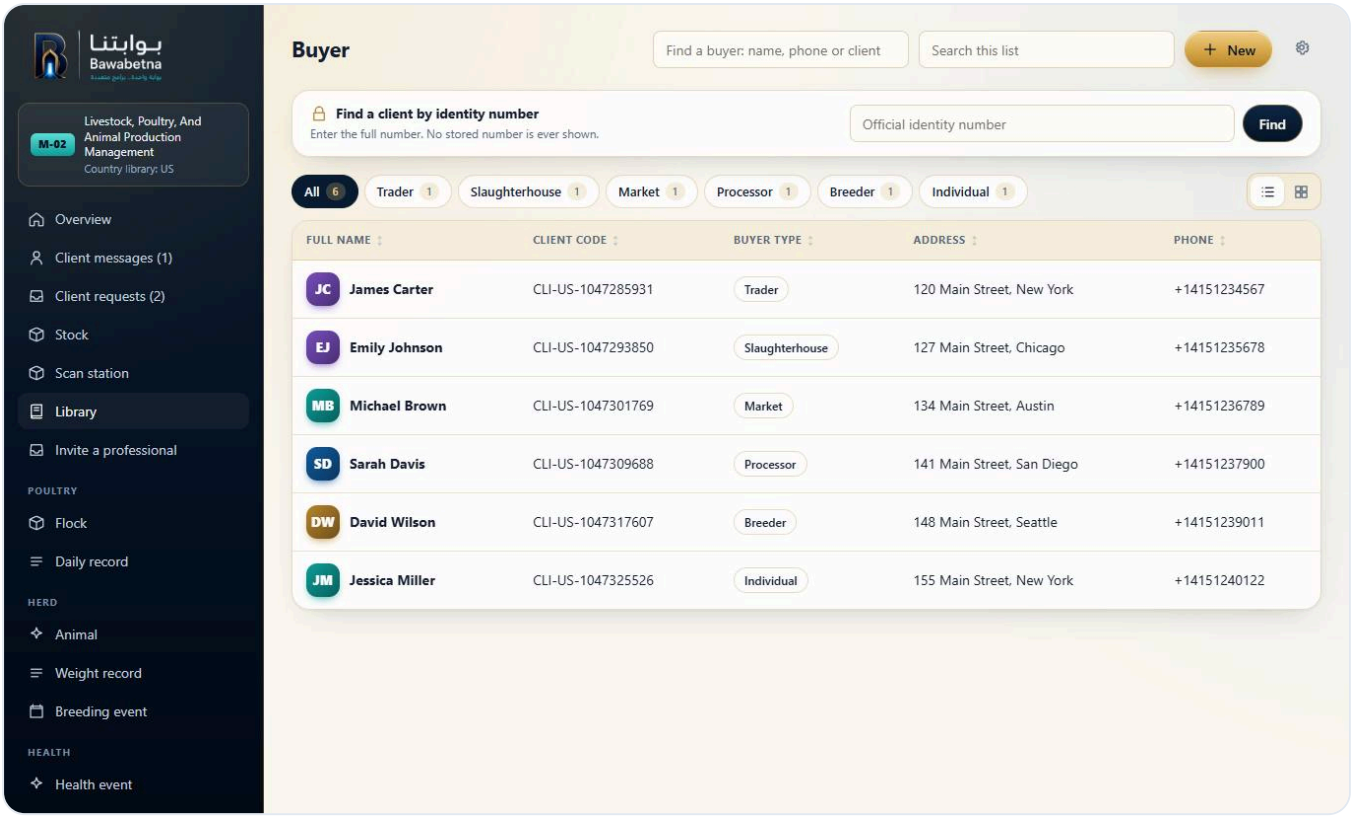

### Health event

**What you record:** Animal, Flock, Event type (required), Treatment (required), Product, Quantity, Given on (required), Withdrawal until, Next due, Veterinarian, Diagnosis, Status (required)

**Stages:** A new record starts as "Planned".

Planned → Given

# Buyers

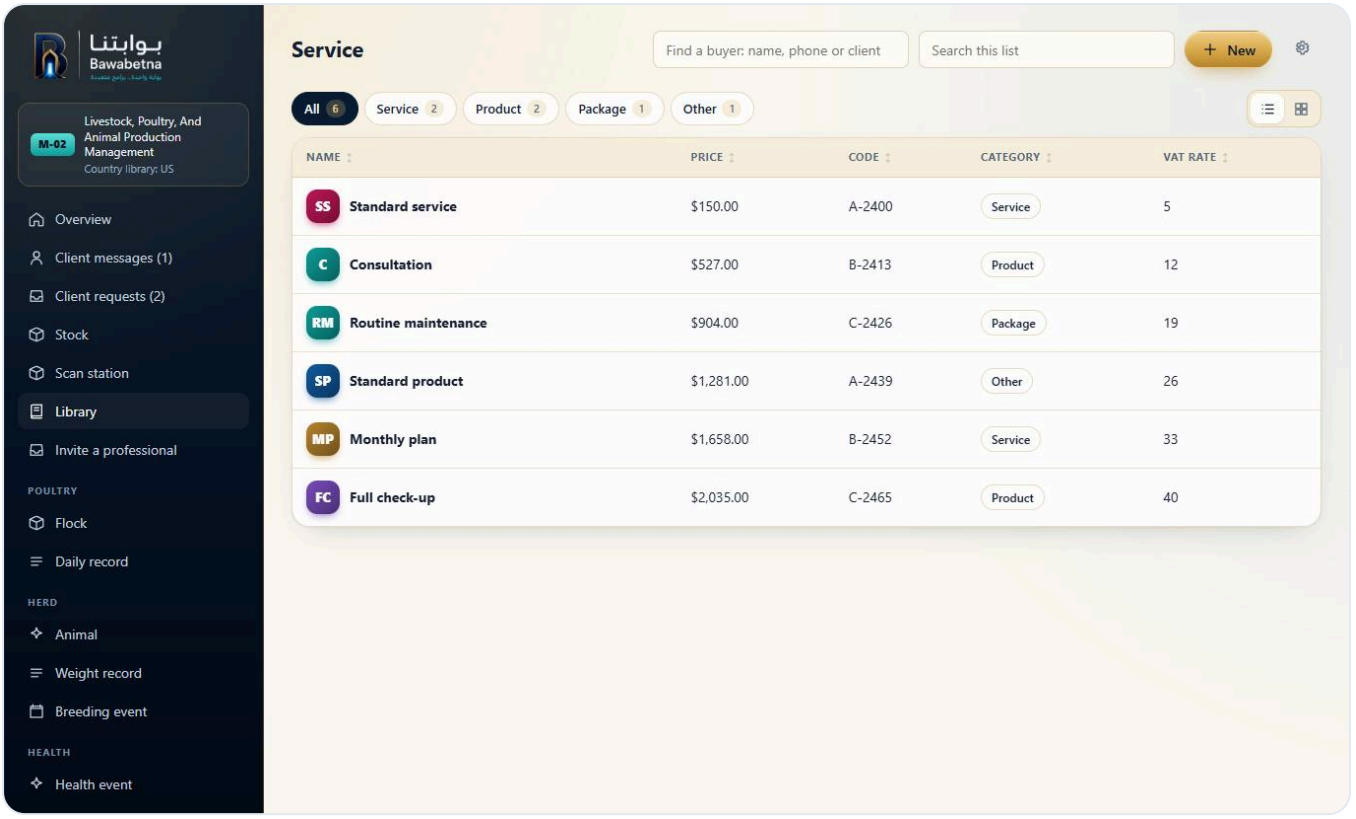

Buyer

### Buyer

**What you record:** Full name (required), Buyer type (required), Address, Phone, Client code, Ecosystem registration, Identity country, Official identity number (required), Notes

## Billing

Service

### Service

**What you record:** Code, Name (required), Category, Price (required), Vat rate (required), Active

### Invoice

**What you record:** Invoice number (worked out by the program), Buyer (required), Currency (required), Issued at (worked out by the program), Subtotal (worked out by the program), Tax total (worked out by the program), Total (worked out by the program), Paid (worked out by the program), Refunded (worked out by the program), Net paid (worked out by the program), Balance (worked out by the program), Status (required), E invoice reference, Notes

**Stages:** A new record starts as "Draft".

Draft → Issued | Draft → Voided | Issued → Voided | Refunded → Reconciled | Settled → Reconciled

**What you record:** Invoice (required), Service, Description (required), Quantity (required), Unit price (required), Discount, Vat rate (required), Line net (worked out by the program), Line tax (worked out by the program), Line total (worked out by the program)

### Payment

**What you record:** Receipt number (worked out by the program), Invoice (required), Amount (required), Method (required), Transaction reference, Paid at (worked out by the program)

### Refund

**What you record:** Refund number (worked out by the program), Payment (required), Invoice (worked out by the program), Amount (required), Reason (required), Refunded at (worked out by the program)

## Stock

### Product

**What you record:** Name (required), Sku, Category (required), Gtin, Unit, Price (required), Vat rate (required), Reorder level, Active

### Supplier

**What you record:** Name (required), Tax number, Phone, Email

### Purchase receipt

**What you record:** Receipt number (worked out by the program), Supplier (required), Supplier invoice, Received on (required), Status (required), Files

**Stages:** A new record starts as "Draft".

Draft → Received | Draft → Voided | Received → Voided

### Purchase line

**What you record:** Receipt (required), Product (required), Quantity (required), Unit cost

### Stock write off

**What you record:** Write off number (worked out by the program), Product (required), Quantity (required), Reason (required), Notes, Status (required)

**Stages:** A new record starts as "Draft".

Draft → Posted

### Stock count

**What you record:** Count number (worked out by the program), Counted on (required), Counted by, Notes, Status (required)

**Stages:** A new record starts as "Draft".

Draft → Posted

### Stock count line

**What you record:** Stock count (required), Product (required), Counted quantity (required), Recorded quantity (worked out by the program), Difference (worked out by the program)

## Setup

### Livestock farm

**What you record:** Name (required), License number, Country (required), Tax number, Default currency, Farm registration number, Whatsapp enabled, Online meeting link, Payment link, Review link, Ai assistant enabled, Ai model, Ai endpoint

### Branch

**What you record:** Livestock farm (required), Name (required), Address, Phone

### Farm worker

**What you record:** Branch (required), Full name (required), License number, Phone, Job, Active

**House**

**What you record:** Name (required), House type (required), Capacity, Active

## Reports

Reports are worked out on your computer from your records. Choose a period, see the chart and the table, then print or export them. The reports of this program:

- Herd by species
- Flock performance (FCR, livability)
- Mortality, feed and eggs by flock
- Health events by type
- Revenue by month
- Revenue by service
- Collections by payment method
- Outstanding balances by client
- Stock count differences by item (missing - / extra +)
- Receivables aging (days since issue)

## Working with your clients

A client with a Bawabetna Client Code can, from the free client app: book an appointment, write to you, send requests and documents, sign documents, see what they owe and pay you directly, tell you they have arrived, ask for an earlier time and see their points. Everything reaches this program with its next sync.

## Your data

Your records are kept encrypted on your own computer; only a short summary of each transaction is sent to Bawabetna. Make a backup from Settings; it is encrypted with your recovery key.

## Help
